

### Innovative

- Full polymer extrusion and molding
- RFID equipped enabling tracability
- Stability bottom plate
- Scratch and impact resistant
- Sealed & secured
- Improved ergonomics

### Quality proof □

- EASA certified (150kg utility)
- IATA approved RFID tags
- Optimal sealing
- Hygiene construction

### Cost conscious

- High volume production
- Maintenance free
- Light weight

### Environmentally friendly

- Weight: FS: 16.9 kg – HS: 11.2 kg → reduced carbon footprint
- Trading CO2 rights (ETS law 2011)□
- Cradle to cradle designed
- Closed loop recyclable

### Optionals

- HS top tray clip (HS extension)
- Specific service drawer in airline branding
- FS heavy duty option (removable for flexibility in packaging)
- Air-in/ air-out
- AeroCat facilitated cooling options
- AeroCat facilitated waste options
